Bob Moriarty

Bob Moriarty is a seasoned expert in precious metals, macroeconomics, and geopolitics, with a particular focus on gold and mining sectors.

Key views & insights (Last 7 days):

- **Gold's Surge Reflects Economic Uncertainty:** The recent rise in gold prices indicates a global shift from the U.S. dollar to safer assets like gold, silver, and platinum, as investors seek security amid economic instability. (streetwisereports.com)

- **Platinum’s Potential Amid Supply Deficit:** Platinum has experienced a 50% price increase in 2025, with a significant supply deficit projected due to decreased global production, especially from South Africa, and rising demand in China and India. ([streetwisereports.com](https://www.streetwisereports.com))
- **Junior Miners Poised for Growth:** Despite current low valuations, junior mining companies are expected to benefit from increased capital inflows as the precious metals sector gains recognition, potentially leading to mergers and acquisitions. ([streetwisereports.com](https://www.streetwisereports.com))
- **Geopolitical Tensions Impacting Markets:** Ongoing global conflicts, such as those in Ukraine and Israel, add complexity to the financial landscape, potentially accelerating the decline of Western economic dominance and emphasizing the need for asset diversification. (gist.ly)
- **U.S. Economic Policies Under Scrutiny:** The U.S. government’s approach to manufacturing and mining industries, including reliance on foreign critical minerals, poses challenges to economic security, highlighting the necessity for domestic production and strategic resource management.
